Reference to Field Notes.

- * NB. These Remarks are taken as if the whole Township was laid out on the new method. where it has been required to East against the original map, it has been done so and so otherwise, as required.

(in respect to roads)

Finding there was an overlap. one and a half full tenth Concession and that there was a considerable parcel of land taken therein as two acre Lots. I judged it proper to lay out the overlap in Lots. in the eleventh Concession of 20 acres. so increasing it to twenty. when a Lot of 20 acres was made.
